WELCOME FROM THE PRESIDENTS

Dear Colleagues,

We are delighted to welcome our industry colleagues to the joint ESA-SRB-ANZOS Annual Scientific Meeting at the Perth Convention Centre, Western Australia. The ESA-SRB-ANZOS themes and topics will be announced shortly. Our program organising committees are bringing together a program covering the most state-of-the art advances in the fields of Endocrinology, Reproductive Biology and Obesity research, including awards sessions, oral presentations and poster abstracts.

Don't miss this opportunity to network and share your expertise with industry professionals. We look forward to you attending in person, enjoying the collegiate atmosphere, and catching up with people, as well as hearing about the latest medical and scientific advances across all 3 societies.

We look forward to seeing you in Perth!

CONFERENCE APP

The **ESA-SRB-ANZOS 2025** is adopting sustainable practices in 2025. For this reason, we have chosen to go fully digital with our meeting program.

The App will be your go-to resource for:

- The current program and all session details
- Social and add-on session information
- Bookmark sessions to create your own customised program schedule
- Speaker biographies
- Sponsor and exhibitor details
- Floor plans and directions
- Downloadable documents
- Staying up to date and informed with live on-site notifications
- Taking notes within sessions
- Connecting with other attendees
- An internal social media feed

Instructions on how to access the app can be found on the next page.

SMOKING

Smoking is not permitted in the venue.

MOBILE PHONES

Please ensure your mobile phone is turned off or to silent during any session you attend.

INSURANCE

The hosts and organisers are not responsible for personal accidents, any travel costs, or the loss of private property and will not be liable for any claims. Delegates requiring insurance should make their own arrangements.

DISCLAIMER

The hosts, organisers and participating societies are not responsible for, or represented by, the opinions expressed by participants in either the sessions or their written abstracts.

CODE OF CONDUCT

The Endocrine Society of Australia, The Society for Reproductive Biology and the Australian and New Zealand Obesity Society are committed to providing conferences and events that are productive and enjoyable for everyone, regardless of gender, sexual orientation, disability, physical appearance, body size, race, nationality or religion.

Each member of ESA, SRB and ANZOS and those that attend meetings have a responsibility to act in a way that ensures a positive experience for all members and those that interact with members. All members and registrants are required to read, understand and follow this Code of Conduct. Conference attendees include anyone who registers for and attends the annual conference, irrespective of membership status or organisation.

- Members and those attending conferences will treat others with respect, dignity, consideration and courtesy.
- Members and those attending conferences will comply with the law, and in all their dealings with others behave honestly and ethically and respect individual privacy. This includes not photographing or recording any individual without consent.
- Members and those attending conferences will refrain from any form of behaviour that may be perceived as intimidation, harassment, a threat or otherwise cause a person to fear for their safety.
- Members and those attending conferences will not engage in acts of bullying, aggression or violence.
- Members and those attending conferences will respect the rights of others to attend the annual conference or other events associated with the conference free from discrimination and harassment, including sexual harassment. Harassment includes inappropriate physical contact, unwanted sexual attention or innuendo, deliberate intimidation or stalking. It also includes offensive comments related to gender, sexual orientation, disability, physical appearance, body size, race or religion. Sexist, racist, or exclusionary comments or jokes are not appropriate.
- Members or those attending conferences who witness violations of this code have a duty of care to report the behaviour to the Executive of their society (President, Secretary or Treasurer) other Council member or the Conference Secretariat as they see fit.
- Members or those attending conferences will not photograph data slides or posters during presentations or disseminate content for their own personal use.

We do not tolerate harassment in any form. Anyone who wishes to report a violation of this code is asked to contact, in confidence, the President, Secretary or Treasurer, another Council member or the Conference Secretariat.

AWARDS AND LECTURERS OF ESA

ESA AWARD SPONSOR

PINCUS TAFT MEMORIAL LECTURERS

Pincus was a founder of clinical endocrinology in Melbourne and in Australia. As the obituary states he was the inspiration and role model for many younger colleagues to take up endocrinology. He had a rare ability to accord respect to all his colleagues from interns and JRMOs through to contemporaries while still being able to instruct or guide them according to an uncompromisingly high standard and he was never afraid to openly acknowledge someone else's ideas if he thought they were better than his [although not a common occurrence].

ANZOS SPONSORS & AWARDS

2025 ANZOS YOUNG INVESTIGATOR AWARD

The ANZOS Young Investigator Award is the most prestigious research prize awarded by the Society. It is designed to recognise and support the research careers of early-career scientists, either recently graduated or in the early stages of their research journey, who are current financial and active ANZOS members engaged in obesity-related research. The award is based on the originality, innovation, and productivity of the applicant's research over the past five years. Final selection is made by the ANZOS Awards Subcommittee, which considers both the applicant's past contributions and their potential to advance our understanding of obesity into the future

BUSINESS EVENTS PERTH

BUSINESS EVENTS PERTH

Funded by the Western Australian Government through Tourism Western Australia, the City of Perth and our member partners across the State, Business Events Perth has been securing high value conferences and incentive groups for Western Australia for 50 years.

Our charter is to market, in conjunction with local organisations, Western Australia nationally and internationally as a destination for conventions, exhibitions and incentive travel groups. We want you to hold your conference in WA and we can help you do so.

Business Events Perth's bank of in-house expertise and industry knowledge ensures that a meeting, incentive or exhibition planner will have access to current market intelligence, local support and assistance to help bring an event to Western Australia. We know what our great State has to offer, and we know what you need to stage a successful event. So, let us help you make your next conference the huge success you want it to be.

TOURISM WESTERN AUSTRALIA

Is the State Government agency responsible for promoting Western Australia as an outstanding tourism and events destination. The agency drives visitor growth through marketing campaigns, event attraction, and destination development, while supporting industry partners to enhance visitor experiences and strengthen the state's visitor economy.

LAWLEY

LAWLEY**Booth Number: 5**

Founded in 1995, Lawley Pharmaceuticals is a privately owned, Perth-based Australian company and a global leader in the research and development of transdermal testosterone therapies for both women and men. In 2020, over two decades of dedication culminated in Australian regulatory approvals that marked global breakthroughs in testosterone treatment. AndroFeme® 1 is the world's first female testosterone cream to receive global licensing—pioneering treatment for hypoactive sexual desire dysfunction in postmenopausal women. For men, AndroForte® 5 offers a low-dose, fast-absorbing, and cost-effective testosterone option via scrotal application. This method enhances safety by reducing third-party passive transfer and significantly lowers treatment costs for patients and healthcare systems. At Lawley, we believe in working with the body—not against it—by delivering testosterone hormone therapies that are body-identical, effective, and trusted. Available nationally in Australia and under Section 29 in New Zealand.

WIN

Booth: 15

Many Australians are living with overweight or obesity, and while weight issues have been seen in the media more frequently over the past few years, the voice of people living with overweight and obesity has been missing.

In 2019, Weight Issues Network (WIN) was established. People living with overweight and obesity, passionate clinicians and health academics worked together to develop the purpose, objectives and guiding principles of this new organisation. It was agreed that WIN should be accessible for a broad range of people, including those with lived experience along with parents and carers, family members, friends, and clinicians.
